ATMAZ ALSIBAI

Seattle, WA | 206 488 4146 | khaled.alsibai@gmail.com | www.khaled-alsibai.com

SUMMARY

With over 19 years of experience in the fields of software development and information technology, I seek employment as a front-end web developer building web applications, working to resolve technical issues and doing whatever it takes to meet the needs of clients. I am personable, highly motivated, organized, and reliable. I excel individually and on a team.

Originally from Syria, I lived and worked in Saudi Arabia from 1997 to 2015. I relocated to Seattle, WA in September 2015. I hold an Employment Authorization Card permitting me to work in the U.S. Since arriving, I continued to develop my web development skills and I volunteered as a computer lab instructor to help fellow immigrants and refugees to learn and build their professional career.

LIST OF SKILLS

HTML, CSS, JavaScript, JQuery, JQuery UI, JSON, Ajax, Bootstrap, Sass, GitHub, BrowserSync, Sublime Text, responsive web development, User experience, web hosting, browser development tools, multimedia design & development, advertising, Adobe Photoshop, Illustrator and Acrobat, macOS, MS Windows, MS Office, computer assembly, computer diagnostics and maintenance, professional photography, studio lighting, image retouching and manipulation, Nikon Capture NX, and intermediate video editing.

WORK EXPERIENCE

2010 — 2015

FOKS Creative House
Cofounder & COO
Jeddah, Saudi Arabia

- Consulted with clients and fostered communication between them and FOKS Creative House.
- Developed long-term professional relationships.
- Worked with creative directors to develop design concepts and artwork.
- Advertised and implemented effective brand exposure campaigns through web and social media platforms.
- Planned photo sessions from initial concept and staffing through final product delivery for advertising agencies and local businesses.
- Handled photography & lighting in-studio and on location.
- Provided professional image editing services, including: retouching, masking, color management, and other image enhancements.
- Interacted with local photographers, event planners, hair stylists, food stylists, and modeling agencies.
- Built and administered the foksch.com website.
- Oversaw the creative team, administration staff and marketing personnel to ensure smooth day-to-day operations.

WORK EXPERIENCE (CONTINUED)

2003 — 2010

Miraat Information Technology

Multimedia Project Manager
Jeddah, Saudi Arabia

- Led the multimedia design and development team to produce DVD-based projects.
- Utilized Adobe Director, Flash, Photoshop, and Illustrator, Microsoft Access and V12 database engine, INM's Impressario, Print-O-Matic, and Buddy API.
- Directed 3D artists and graphic designers to create interfaces and workflows that ensured the best UX/DX possible.
- Coordinated with media professionals to produce content for the media bank.
- Collaborated with my team to create Flash media used within Director projects.
- Developed and administered the miraat.com website.

2000 — 2003

Bintech Interactive

Multimedia Designer & Developer
Jeddah, Saudi Arabia

- Provided multimedia design and development for multiple CD-based projects.
- Utilized Adobe Director, Flash, Photoshop, and Illustrator, Microsoft Access and V12 database engine.
- Directed 3D artists and graphic designers to create interfaces and workflows that ensured the best UX/DX possible.
- Researched the concept of inter-app communication between Flash and Director, using both applications together to serve project needs.
- Developed an ActiveX object implemented inside of Director projects that enabled Arabic fonts to display and function correctly.
- Enhanced existing scripts and debugged errors.
- Updated and debugged the bintech.com website.

1997 — 2000

LCE

IT Manager & Centura (SQLBase) Software Developer
Jeddah, Saudi Arabia

- Analyzed the company's existing software system.
- Developed new products from the ground up using Centura.
- Created and optimized SQL queries.
- Tested and tuned database code and information.
- Designed and maintained SQL scripts to update and create new reports.
- Implemented server/network maintenance and software installation, set up new workstations and printers, and ensured network stability.
- Met on a regular basis with my team to articulate project scope and expectations and created a monthly report of recommendations for network upgrades and enhancements.
- Provided technical support and hosted monthly workshops and training.
